Savvy Infra bags seven realty awards this year

dna correspondent @dnaahmedabad

Ahmedabad: Savvy Infrastructure, the Ahmedabad-based real estate company, has won seven awards this year. Promoted by Sameer Sinha, Jaxay Shah and Jigish Shah, it was savvy enough to become one of the first real estate players to have a CRISIL rating, winning seven awards in over a year. And, the company has dedicated these achievements to its customers and investors.

Savvy Infrastructure has created a milestone of sorts for real estate in the state as the company has been honoured again this year with multiple industry awards.

The residential project of the company, Savvy Solaris, was given the Real Estate Award for Best Residential Project – Affordable Segment last year. Again, the same project won the Gihed Award for best residential project this year. In 2013, Shapath V bagged the Gihed Award for the Best Commercial Project. It has also been awarded LEED GOLD for Green Commercial Complex as well as Real Estate Award for Best Commercial Complex.

While Shapath IV bagged the Gihed award for the best maintained building in 2013. In this year, known for sportsmen, Savvy Swaraaj Sports Living Township is honoured with the Real Estate Award for the Best Residential Project as 50% of the project is complete.

“Savvy Group aims to establish a benchmark of delivering ‘quality’ to our esteemed customers. This progressive approach enhances customer comfort and provides the right balance between efficient living/working and environmental well-being,” said Jaxay Shah.
